📂 Projects

Accurate Speed Control of Electric Vehicle
- *Day-by-day the technology is growing rapidly, and this technology can be very useful if we use this in automobiles.*
- *The idea came into picture like Controlling the Vehicle speed by voice by giving the commands like 40, 50, 30..,the heart of the project is Raspberry Pi (Pico).*

Vehicle Starter on Face Detection
- *A vehicle key is the only way to start the car or to provide ignition to the engine.*
- *The face recognition-based car starter system literally replaces the car ignition by replacing the key with specific user face. This smart vehicle system is powered by Arduino circuit.*
